Clothes/ shoes		$	$
Entertainment		$	$
	total	**$**	**$**
Amt. Remaining		**$**	**$**
Unexpected Income		**$**	**$**
Unexpected Expenses		**$**	**$**
Amt. Remaining		**$**	**$**

Some Things to Consider:

1 Carol is also borrowing money to pay for school.

2 Carol does have the option of using public transit (bus) to get to work. But the bus costs money, and also adds time to her commute which impacts her being home with her daughter.

3 Carol's daughter gets invited to birthday parties. When this happens does she buy a present? Tell her daughter that she can't go? Send her without a present?
